

I am very concerned that the new LPFM will have a negative impact on my and my family's ability to receive my local KLove radio station, 88.7 FM. I am a financial supporter of KLove, and have been for nearly two years. It is a wonderful radio station playing good, wholesome, christian music, with uplifting messages for the whole family. This radio station is listened to by tens of thousands of people in our area.

Our community would be hurt tremendously if this KLove station were replaced by a LPFM station. KLove serves the public interest in many ways, playing many PSA's throughout the week, but the best community service it provides is the encourage and positive impact it has on the thousands of young teenagers that listen to it.

Please do not allow the new LPFM's to infringe on a great station that has a large following of listeners. This message is not only for our local community, but for any community KLove serves. No other radio station serves the community like KLove. Thank you!
